

## **DIGIBOILER and BREWZILLA Specifiction**

**35L.65L.100L**

**Do what you need. Brew what you like.**

**1. 35L DIGIBOILER**

Item number	KL07252	KL07245
Product Name	35L DigiBoil	
Material	S.S 304	
Outer bucket size	66cm*Φ31cm	
Voltage	220-240V (50Hz~60Hz)	110-120V (50Hz~60Hz)
Power	500W/1900W/2400W	500W/1000W/1500W
Heating Method	Electric heating	
Packing Dimension	37cm(L)*37cm(W)*76cm(H)	
G.W	7.2KGS	

**2. 65L DIGIBOILER**

Item number	KL07313	
Product Name	65L DigiBoil	
Material	S.S 304	
Outer bucket size	74cm*Φ42cm	
Voltage	220-240V (50Hz~60Hz)	
Power	500W/1000W/2000W/3500W	
Heating Method	Electric heating	
Packing Dimension	52cm(L)*52cm(W)*81cm(H)	
G.W	12.3KGS	

**304 grade stainless steel turbo boiler with Digital display**

Adopt high quality 304 stainless steel, more reliable, durable, safe and healthy  
Set from 0°C and up to 140°C with 1°C increments and 1C resolution on the display

**Quality made stainless tap with stainless barb**

The boiler has a quality made stainless tap with stainless barb and 1/2inch thread so you can attach the wide range of other half inch fittings such as camlocks and many other fittings that we can supply.

**Pre-marked with graduations in litres and gallons**

Accurate to +/- 1 liter

**Dual/Triple element control**

so you can adjust the power from 500watts, 1000watts, 1500watts, 2000watts, 2500watts, 3000watts and 3500watts!

### 3. 35L Brewzilla Gen 3.1.1

Item number	KL05821	KL05838
Product Name	35L BrewZilla Gen 3.1.1 with Pump	
Material	S.S 304	
Capacity	35L	
Outer bucket size	66cm*Φ31cm	
Voltage	220-240V (50Hz~60Hz)	110-120V (50Hz~60Hz)
Heating Power	500W/1900W/2400W	500W/1000W/1500W
Heating Method	Electric heating	
Pump Power	6W	
Packing Dimension	40cm(L)*40cm(W)*75cm(H)	
G.W	12.1KGS	
Operability	Easy	
Application	Lager, Ale, IPA, Creative Craft Beer	

### 4. 65L Brewzilla Gen 3.1.1

Item number	KL04763	
Product Name	65L BrewZilla 3.1.1 with Pump	
Material	S.S 304	
Capacity	65L	
Outer bucket size	74cm*Φ42cm	
Voltage	220-240V (50Hz~60Hz)	
Heating Power	500W/1000W/2000W/3500W	
Heating Method	Electric heating	
Pump Power	6W	
Packing Dimension	52cm(L)*52cm(W)*81cm(H)	
G.W	21.4KGS	
Operability	Easy	
Application	Lager, Ale, IPA, Creative Craft Beer	

**BrewZilla Gen3.1.1 Parts list**

Main BrewZilla Gen3.1.1 Unit With Pump,Lid with Recirculation Hole,  
Immersion Chiller, Male Camlock Recirculation Arm Extension,  
Perforated False Bottom,Pipe Assembly.

Recirculation arm:  
scientific design, more durable, interior has no folds, easy to clean,  
simple and beautiful

Heating plate:  
Increase size of the heating plate, heat dispersion ,effectively prevent  
paste bottom

kegland High Temperature Magnetic Drive pump is made of imported  
raw materials. All connecting wires are connected with terminals to  
prevent loosening. Installed hot insulation sleeve and thermal  
insulation cotton to effectively avoid heat loss, ensure stable operation  
of electrical components and prolong service life

Welding more firm strength

Pre-marked with graduations in litres and gallons others only have  
litres

Waterproof switch, more safe and reliable

### 5. 35L Brewzilla Gen 4

**35L  
GEN 4**

LOG & CONTROL REMOTELY VIA RAPT PORTAL

Improved  
Recirculation Arm  
Design

Improved  
Lid Handles

Easy Tip  
Handles

Ergonomic  
Full Colour  
Display

Drains Completely  
With Dish Base

Easy Access Pump  
(Just Flip Upside Down)

IEC Cable for  
Easy Stowage

Item number	KL27434	KL27441
Product Name	35L BrewZilla Gen 4 with Pump	
Material	S.S 304	
Capacity	35L	
Outer bucket size	66cm*Φ31cm	
Voltage	220-240V (50Hz~60Hz)	110-120V (50Hz~60Hz)
Heating Power	500W/1900W	500W/1000W
Heating Method	Electric heating	
Pump Power	6W	
Packing Dimension	40cm(L)*40cm(W)*76cm(H)	
G.W	15.3kg	
Operability	Easy	
Application	Lager, Ale, IPA, Creative Craft Beer	

### 6. 65L Brewzilla Gen 4

**65L  
GEN 4**

LOG & CONTROL REMOTELY VIA RAPT PORTAL

Improved  
Recirculation Arm  
Design

Improved  
Lid Handles

Easy Tip  
Handle

Ergonomic  
Full Colour  
Display

Drains Completely  
With Dish Base

Easy Access Pump  
(Just Flip Upside Down)

IEC Cable for  
Easy Stowage

Item number	KL27458	
Product Name	65L BrewZilla Gen 4 with Pump	
Material	S.S 304	
Capacity	65L	
Outer bucket size	74cm*Φ42cm	
Voltage	220-240V (50Hz~60Hz)	
Heating Power	500W/1000W/2000W	
Pump Power	6W	
Heating Method	Electric heating	
Packing Dimension	51cm(L)*52cm(W)*80cm(H)	
G.W	23.5kg	
Operability	Easy	
Application	Lager, Ale, IPA, Creative Craft Beer	

## 7. 100L Brewzilla Gen 4

**100L  
GEN 4**

LOG & CONTROL REMOTELY VIA RAPT PORTAL

Improved  
Recirculation Arm  
Design

Improved  
Lid Handles

Ergonomic  
Full Colour  
Display

Tip Handles

3 x 2200w Elements  
Requires 32A

Drains Completely  
With Dish Base

25w High Flow  
Pump

Easy Access Pump  
(Just Flip Upside Down)

Item number	KL27465
Product Name	100L BrewZilla Gen 4 with Pump
Material	S.S 304
Capacity	100L
Outer bucket size	70cm*Φ52cm
Voltage	220-240V (50Hz~60Hz)
Heating Power	2200W/2200W/2200W
Heating Method	Electric heating
Pump Power	25W
Packing Dimension	65cm(L)*65cm(W)*85cm(H)
G.W	34kg
Operability	Easy
Difference with 35L.65L	<b>Size, Power, Cord, Plug, With Heat Exchanger Dish (HED), Without coil</b>
Application	Lager, Ale, IPA, Creative Craft Beer

### NOTICE

The BrewZilla Gen 4 is designed to be a compact single vessel, double batch all grain home brewing system that can be run off out of the box with a 32a Single Phase. It can also be rewired by a qualified electrician to a 10a Three Phase connection. Further details on power conversion see the link:<https://www.kegland.com.au/media/pdf/BrewZilla%20100L%20-%20Convert%20Single%20Phase%20to%20Three%20Phase%20Manual.pdf>

32A Single Phase → 10A Three Phase

KL29636 BrewZilla Gen 4 - 32A Single Phase Power Cord for 100L

KL29643 BrewZilla Gen 4 - 32A Three Phase Power Cord for 100L(3M)

KL30403 Power Point Single 240v 32Amp

Waiting: PLUGS confirmation for EU and USA

## G4 Production Technology

1. Complete Concave Draining Base: capture every single bit of wort.
2. False Bottom Pump Protection Screen: avoids the need for doing a whirlpool.
3. Ultra Low Watt Density: enables you to produce lighter colours of beers.
4. RAPT/Wifi Connected: allows you to track, record and monitor your brews online.
5. Bluetooth Gateway Device.
6. Improved Base Design with Easy Access Pump.
7. RAPT Controller with Full Colour Screen.
8. IEC Cable for Easy Storage.
9. Improved Lid Handles are more robust and more ergonomic to hold.
10. Two Stage Oversized Malt Pipe to mash more grains and either make more beer.

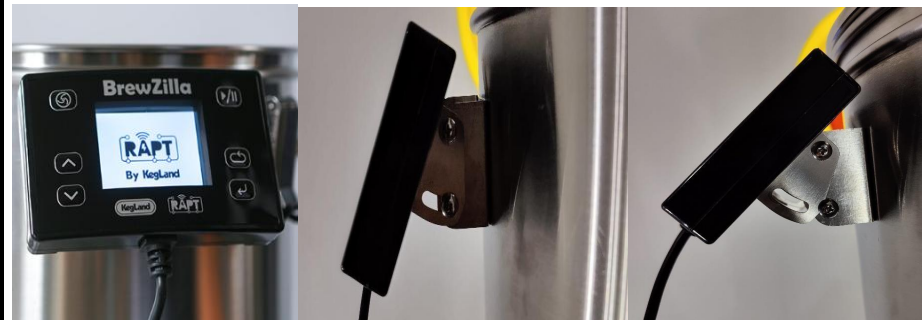

### G4 Improved Base Design with Easy Access Pump

The BrewZilla Digital Controller is mounted in a position at the top of the boiler with a tilting frame so you can adjust the angle of the screen depending on your height, improving the overall ergonomics of the system.

### G4 Adjustable Angle of the Digital Controller

The new base design means we have sealed all the electronics on the underside of the brewery into a separate junction box. This has allowed us to omit the bottom cover. This significant design change means that the pump can be accessed much more easily. It also means the plumbing can be changed more easily too.

## G4 RAPT/Wifi Bluetooth Gateway Device

The new Gen 4 model is the first BrewZilla that connects to the RAPT Portal (<https://app.rapt.io/>). This portal allows you to track, record and monitor your brews online. The RAPT portal also allows you to see every brew you have done in the past and control the brewery remotely so you can start pre-heating water remotely or simply keep an eye on the brewing process while you do something else. Get push notifications to your mobile phone of when to add hops or start the boil.

KegLand is currently developing various Bluetooth devices such as KL24334 Bluetooth low energy (BLE) thermometers and other sensors which will be compatible with this brewery.

## G4 IEC Cable for Easy Storage—NOT SUITABLE FOR 100L

GEN4

The new design has a removable IEC cable so you can unplug the cable making it neater for storage.

## G4 Two Stage Oversized Malt Pipe

This new malt pipe design is 30% larger meaning you can mash more grains and either make more beer or make higher gravity beers.

## G4 Complete Concave Draining Base

The new base design completely drains out meaning you capture every single bit of wort. No longer do you need to tilt the brewery to extract every last bit of wort.

## G4 False Bottom Pump Protection Screen

One of the key features of all the BrewZilla single vessel units is the false bottom protection screen. This screen avoids the need for doing a whirlpool and it filters wort and prevents more than 95% of hops and hot break getting sucked into the pump and thus greatly reduces the blocked pump issues that are often an issue with other brewery designs.

## products recommendation

KL24365 35L BrewZilla Gen 4 - Neoprene Jacket / Parka (with recirculation arm cover) ★★★★★

KL24372 65L BrewZilla Gen 4 - Neoprene Jacket / Parka(with recirculation arm cover) ★★★★★
